vinyl fence systems

## Simplicity at its finest

Vinyl fence is uniquely designed to endure harsh elements for years to come. Special UV protection resists weathering and fading; the in-line coloring system, with 100% premium Dura Technology™ vinyl, creates an elegance that will last and last.

You'll have no worries about rotting, splintering or rusting, as with other commonly used materials.

With a vinyl fence, you can enjoy your life however you wish, without the tedious tasks of staining, painting or sealing your fence. In the long run, you'll save money and precious time—while transforming your home's exterior into a welcoming, beautiful outdoor space.

## Commercial applications

Our Commercial Division serves the needs of building contractors, construction management companies, and residential and commercial developers, where our custom fabrication capabilities and professional installation services are especially valued.

We are unique as a supplier of construction materials in that, in addition to normal deliveries of standard components of PVC materials and products, we can also perform one or more of the following services in providing custom products made from the materials that we handle:

- Design Assistance
- Custom Fabrication
- Professional Installation

Michigan Lake Products, Inc. has two northern Michigan store locations:
