vinyl railing systems

Commercial applications

Our Commercial Division serves the needs of building contractors, construction management companies, and residential and commercial developers, where our custom fabrication capabilities and professional installation services are especially valued.

We are unique as a supplier of construction materials in that, in addition to normal deliveries of standard components of PVC materials and products, we can also perform one or more of the following services in providing custom products made from the materials that we handle:

- Design Assistance
- Custom Fabrication
- Professional Installation

Michigan Lake Products, Inc. has two northern Michigan store locations:

- **Indian River** is our headquarter location, with full-line material supply and complete fabrication plant, product showroom, and sales office.
P.O. Box 880, 5846 S. Straits Hwy., Indian River, MI 49749
231.238.4490 or 800.968.2299 • 231.238.4460 fax
- **Elk Rapids** is our branch location, with product showroom and sales office; material supply can be delivered from here, and small projects and repair materials can also be fabricated here.
P.O. Box 397, 11456 S. US 31, Elk Rapids, MI 49629
231.264.8002 or 800.968.3625 • 231.264.8050 fax

Michigan Lake **PRODUCTS**

Vinyl railing is our specialty!

We fabricate our vinyl railing systems to fit the job at hand. We can create specific heights of railing as well as specific lengths of railing sections for both residential and commercial applications. Because we make our railing on a per job basis, these railing systems are unique in that the picket to post distance is uniform from section to section and we eliminate the majority of the play between the rails, posts and pickets. We also pre-cut railing sections to make it the easiest and quickest railing on the market to install. Our uniquely routed posts make for a clean look without the need for bulky mounts and brackets, saving you time and money with everlasting beauty.

Michigan Lake Products manufactures many types of railings including picket, glass, custom patterns and designs.

Built for life

Our railings are constructed to handle daily wear-and-tear for years to come. From the sun beating down to the wind blowing through, to guests taking a seat for a chat, you'll have no more worries.

Steel reinforcements enhance the durability of the railing and help ensure compliance with construction codes. Our railings feature galvanized steel U-Channel reinforcements in either 12 or 16 gauge, depending on style, in both top and bottom rails for added security.

Eastport

				T-Rail		1 ¹ / ₂ " Square
Any custom height is available						1 ¹ / ₂ " Turned Spindle

Carefree maintenance

These days, it seems everyone is looking for ways to simplify their lives. Our railing

systems can help, because there's virtually no maintenance required. Just spray with a hose to whisk away dirt, and you're done. There's no staining, painting or sealing required. So your time is truly yours, to enjoy however you'd like.

Lasting beauty

Rain. Snow. Heat. Humidity. Whatever your climate brings, our railings will handle it with ease. UV protection keeps colors looking rich and consistent, while our

resilient 100% vinyl construction resists water absorption and warping. As a result, your railings will maintain their original strength and beauty for years to come. To give you that assurance, we've backed them with a limited lifetime Transferable Warranty.

Surface Mounts

Designed to mount railings directly to any type of decking, concrete or any other solid surface

Caps

Elegant post caps add character and style

Skirts

Post skirts give a finished appearance

Posts

From simple to elegant, we have your style

Routed Holes

Michigan Lake Products railing is unique in that holes are routed in the posts, so that the railing sections slide into the posts, eliminating unsightly mounting brackets.
